City of Burbank Investment Portfolio Report for September 2022 Dated November 2, 2022

Dear City Council Members
Justin Hess, City Manager
Judie Wilke, Assistant City Manager
Jennifer Becker, Financial Services Director
Bob Liu, CFO Burbank Water & Power

This report fulfills City, Youth Endowment Services Fund, Parking Authority, Public Financing Authority, Successor Agency to the Redevelopment Agency and Housing Authority resolutions.

CITY PORTFOLIO OVERVIEW

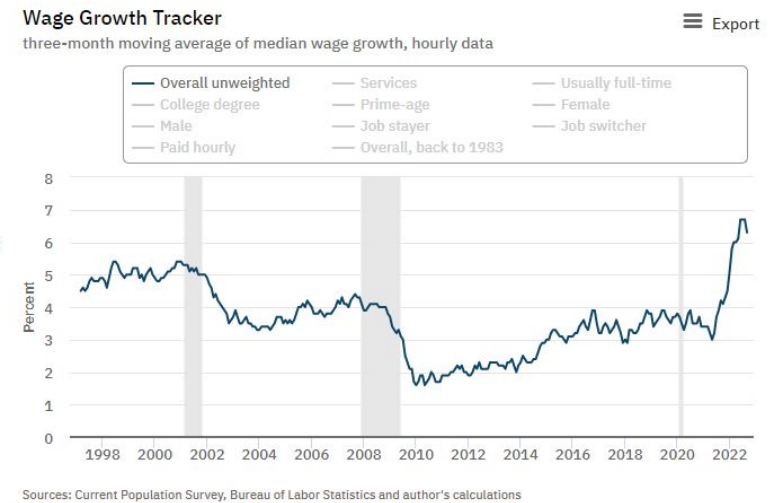

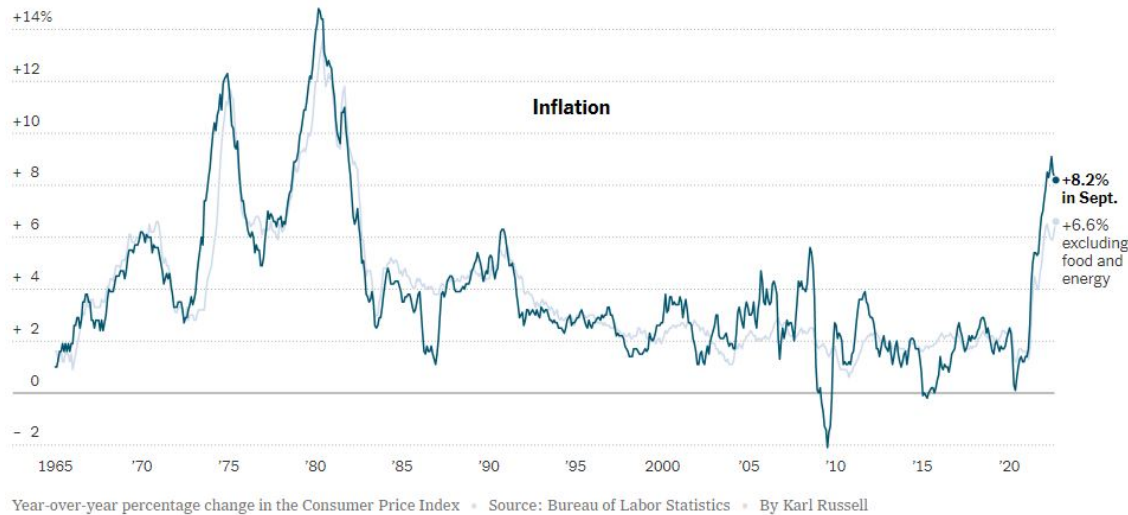

The City must maintain \$101 million in liquidity at all times (maturities within one year plus real estate taxes due from the County in April and December) to meet our projected budgeted expenditures. We currently have \$179 million in liquidity, with \$67 million in our account at the Morgan Stanley Institutional Liquidity Fund – Government Portfolio, \$65 million in investments maturing within a year and \$47 million in real estate taxes due in April and December. Higher liquidity levels continue to be maintained in anticipation of future cash outflows.

The City Investment Pool ended September at \$477 million, up from August's balance of \$470 million. Market value decreased to 94% in September from 95.6% in August. The weighted average yield of the portfolio at the end of the month is 2.23% and the total rate of return fiscal year-to-date is 2.12%.

MARKET OUTLOOK

Inflation continues to run hotter than expected with the most recent Consumer Price Index for September showing overall inflation remaining stubbornly high at 8.2%. Even after removing volatile food and energy prices, Core inflation hit 6.6%, the highest since 1982. While pandemic-related supply chain issues have now been mostly resolved, the labor shortage continues to push up wage costs for businesses especially in the service industries. The risk now is that inflation has the potential to become embedded long-term in the economy. "The longer the current bout of high inflation continues, the greater the chance that expectations of higher inflation will become entrenched," Fed Chair Powell said. There are already early signs of this as people get used to increasing prices across the board and companies realize they can just pass on higher costs to their customers while maintaining or even increasing their profit margins. The Social Security Administration recently announced that 70 million Americans receiving Social Security will see an 8.7% cost-of-living adjustment increase in their benefits next year.

Today, the Federal Reserve hiked its benchmark interest rate another 75 bps, in efforts to slow down the economy and bring down inflation. So far, market movements in response to the Fed hikes have been less pronounced than expected. The labor market is still relatively strong with the unemployment rate at 3.5%, although job openings have started to decrease and wage growth has slowed down. While energy prices have come down from their summer peak, gas prices remain relatively high, and there is also still a lot of uncertainty associated with the war in Ukraine. While consumer confidence is down, retailers are hoping that consumers dig deeper into their wallets especially with the upcoming holidays. Demand is still relatively robust and in a recent survey, only 1 in 5 holiday shoppers said “they will spend less this season because of a changed economic situation.” Across all income levels, households still hold a total of \$1.7 Trillion in excess savings stemming from the pandemic and stimulus payments. Most household inflation-adjusted real incomes are still higher as of mid-2022 compared to 2019, with lower income households seeing the biggest gains. The housing market, however, has already started to slump. With 30-year fixed mortgage rates now over 7%, demand has softened significantly. The latest Case-Shiller index, which tracks the value of single-family homes across 20 US cities, fell 1.1% from July to August, the second straight month-over-month decline. Mortgage applications have now dropped to their lowest level since 1997. Home prices are expected to continue to decline in the next few months.

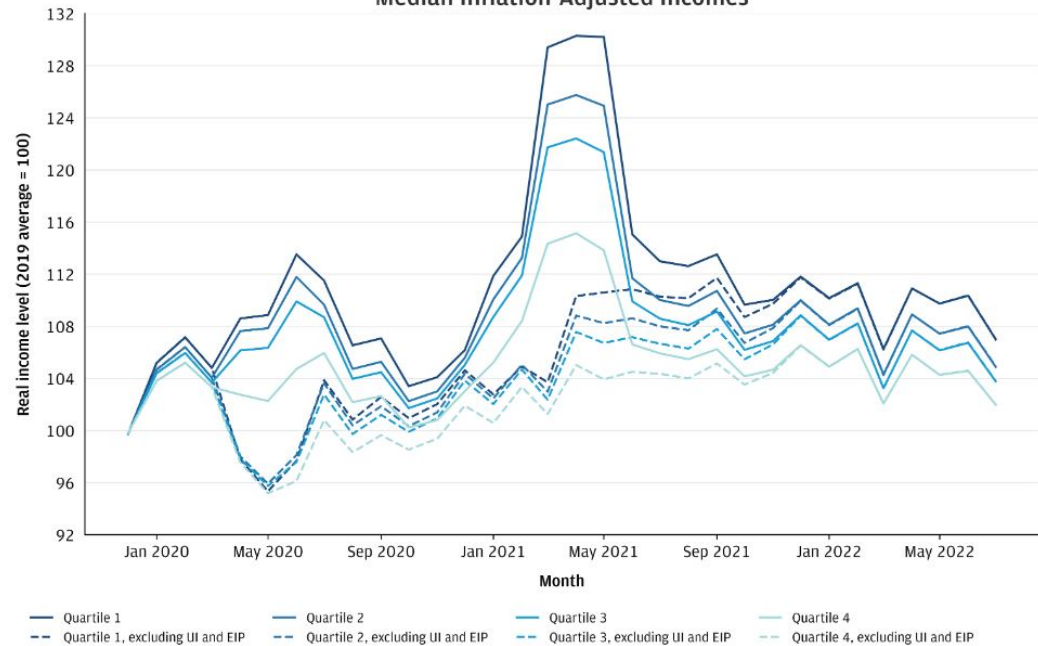

Stock of excess U.S. household savings by income quartile

Source: Federal Reserve

Median Inflation-Adjusted Incomes

Note: The figure shows median income level adjusting for changes in the PCE price index relative to 2019, with group-specific seasonal adjustment. The plot uses a 3-month trailing average to smooth over month-to-month variation in inflows. First quartile is the lowest income group. Income is account inflows excluding transfers between accounts, a take-home pay measure.

 Investment Report | 11/02/22

INVESTMENT POLICY COMPLIANCE

I certify that the City's Investment Portfolio is in full compliance with the City's Investment Policy and California Government Code Section 53601, and I believe the Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and income to meet the City's expenditure requirement for the next six months.
