

Candidate Statement

John Parr

Submitted to City Clerk's Office: August 9, 2024

I'm a social native and father of young twins.

I work as a professional comedian who has been going to city council meetings for a decade where I make funny statements during public comment.

During my comedic career I've seen optimism in our government dwindle. I want to help restore faith in our public officials by being transparent and authentic.

I don't think one ideology will fix every issue. I am committed to working towards a solution on distribution of jobs in land development, housing, figuring out if this school bond is overstuffed, and making sure the community is safe for our kids.

My name is John Parr and the funny part of me running for city council is I'll actually do a good job
