City of Burbank Investment Portfolio Report for April 2024 Dated May 29, 2024

Dear City Council Members
Justin Hess, City Manager
Courtney Padgett, Assistant City Manager
Jennifer Becker, Financial Services Director
Joe Lillio, CFO Burbank Water & Power

This report fulfills City, Youth Endowment Services Fund, Parking Authority, Public Financing Authority, Successor Agency to the Redevelopment Agency and Housing Authority resolutions.

CITY PORTFOLIO OVERVIEW

The City must maintain \$124 million in liquidity at all times (maturities within one year plus real estate taxes due from the County in April and December) to meet our projected budgeted expenditures. We currently have \$257 million in liquidity, with \$18 million in our account at the Morgan Stanley Institutional Liquidity Fund – Government Portfolio, \$127 million in our account at the California Asset Management Program, \$61 million in investments maturing within a year and \$51 million in real estate taxes due in April and December.

The City Investment Pool ended April at \$623 million, flat from March's balance of \$623 million. Market value came in at 96.6% in April, slightly down from 97.1% in March. The weighted average yield of the portfolio at cost at the end of the month is 3.49% and the total rate of return at book value fiscal year-to-date is 3.31%.

Credit News

On May 15, Moody's revised the State of Maine's rating from Aa2 to Aa1, while deeming its outlook stable, stating that it "reflects robust financial reserves that will remain strong through at least the fiscal 2024-25 biennium and likely longer, given a structurally sound budget, conservative revenue projections and wide financial flexibility. Leverage from debt, pension, and OPEB liabilities is declining partly because of solid pension contribution practices and because of higher market discount rates Moody's uses to evaluate liabilities. Nonetheless, Maine's leverage remains above the median for US states because of the state's assumption of local teacher pension and OPEB liabilities. Maine's primary credit challenge is its older and aging population, reflected in its S-3 issuer profile score. While a recent increase in domestic migration has allowed the state to outperform the nation in real GDP growth the past few years, the state will likely revert to the trend of an older and declining population, based on Moody's projections. Such demographic headwinds contribute to slower employment and GDP growth, lower

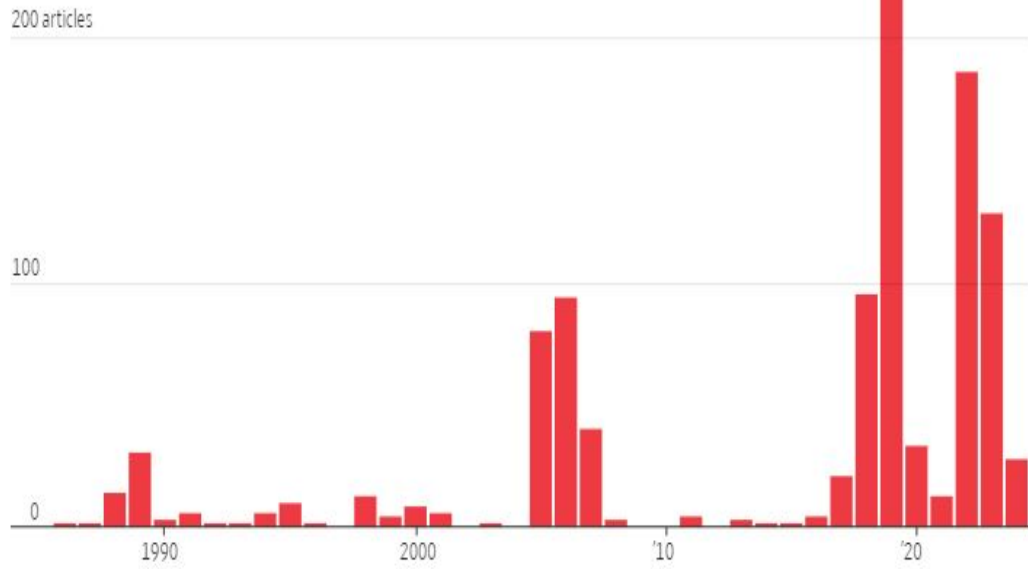

incomes, more limited tax revenue growth prospects, and greater reliance on federal transfer and retirement programs. The state's strong fiscal governance and ability to manage its finances and liabilities through these longer term challenges bolster its credit quality.”

MARKET OUTLOOK

With inflation numbers still relatively strong since the beginning of the year, the Federal Reserve has indicated it will likely need to hold rates steady for much longer, until they see further evidence of price increases decelerating. During their most recent meeting, various Federal Reserve officials have even “mentioned a willingness to tighten policy further should risks to inflation materialize in a way that such an action became appropriate.” They have also expressed uncertainty of how much these higher rates are helping slow down the economy. Although unemployment has increased and hiring has slowed, the overall unemployment rate is still relatively low at 3.9%. Since the yield curve inverted in 2022, markets have been anticipating a recession, because historical yield curve inversions have almost always traditionally preceded one. When longer term yields fall below shorter term yields, it means that investors expect rate cuts, usually as a way to stimulate an economy. However, in contrast to other periods in the past, in this case, job growth has continued to grow since 2022, and overall economic growth is still stable, even after 23 months of a yield curve inversion.

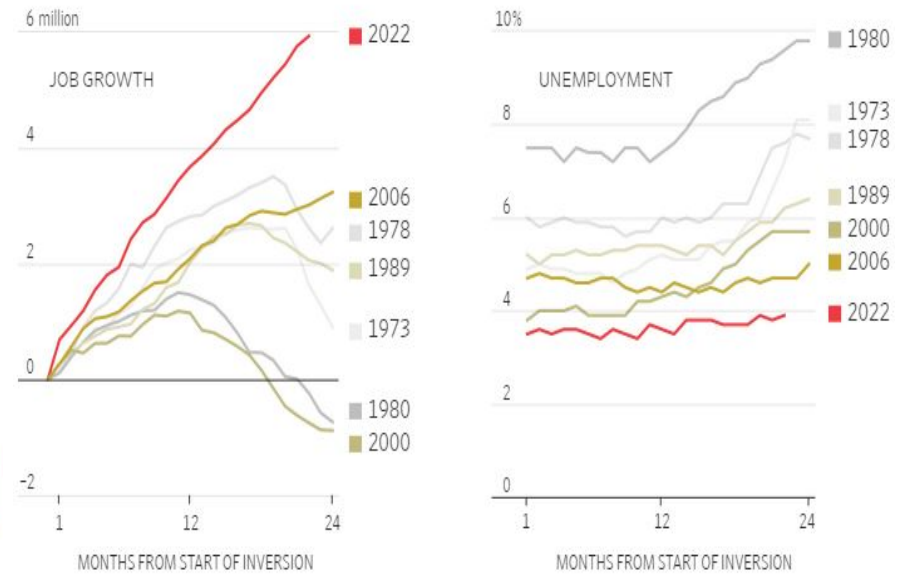

The S&P 500 index recently reached all-time highs and one notable trend in recent years has been the increase in participation in the stock market. According to the Federal Reserve’s Survey of Consumer Finances, the share of households with stock holdings increased to an all-time high of 58% as of 2022, up from 49% in 2013. Historically, this has been concentrated among upper income households, but in the past decade, there has been a notable increase in participation across the income spectrum. According to a JP Morgan report, “in a given month, lower-income individuals were four times as likely to transfer funds to investment accounts in 2023 compared to 2015.” Sustained income growth has emerged as a key predictor of such transfers. Underrepresented groups have seen most of the gains. “The monthly share of individuals below 40 years old transferring funds to investments has more than tripled over the past decade, outstripping increases for those 40 and over. The share of Black and Hispanic individuals transferring money to investment accounts increased relative to White individuals over the past decade and peaked around the timing of pandemic-era fiscal stimulus.”

News articles mentioning both 'inverted yield curve' and 'recession'

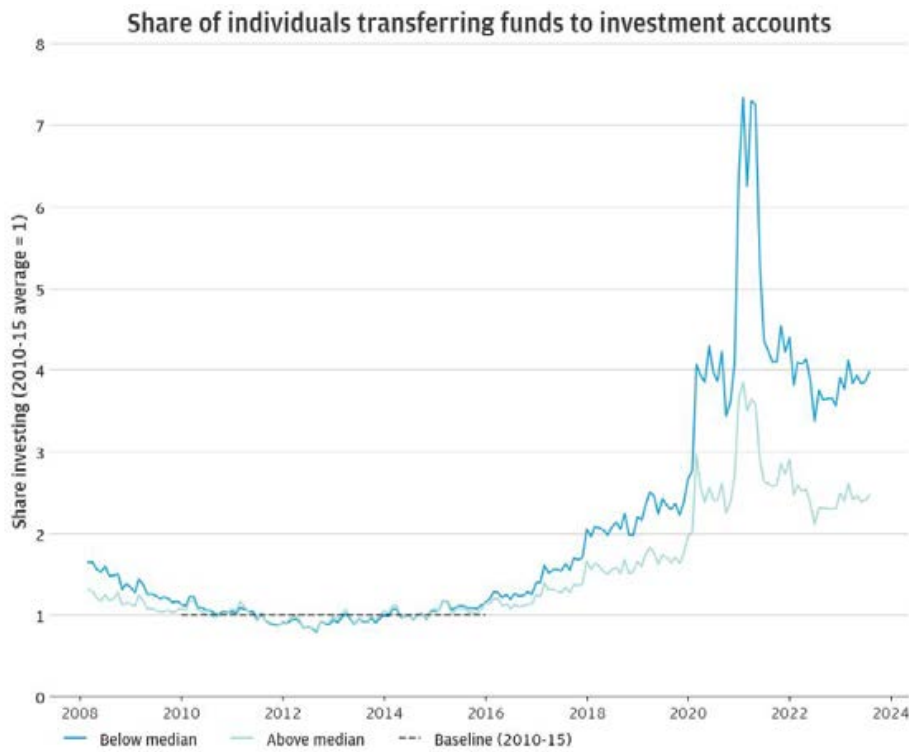

Note: Covers articles in The Wall Street Journal, the New York Times, the Washington Post, the Los Angeles Times, Chicago Tribune, the Associated Press and Reuters.
Source: Factiva

Accumulated job growth and unemployment rate following yield-curve inversions

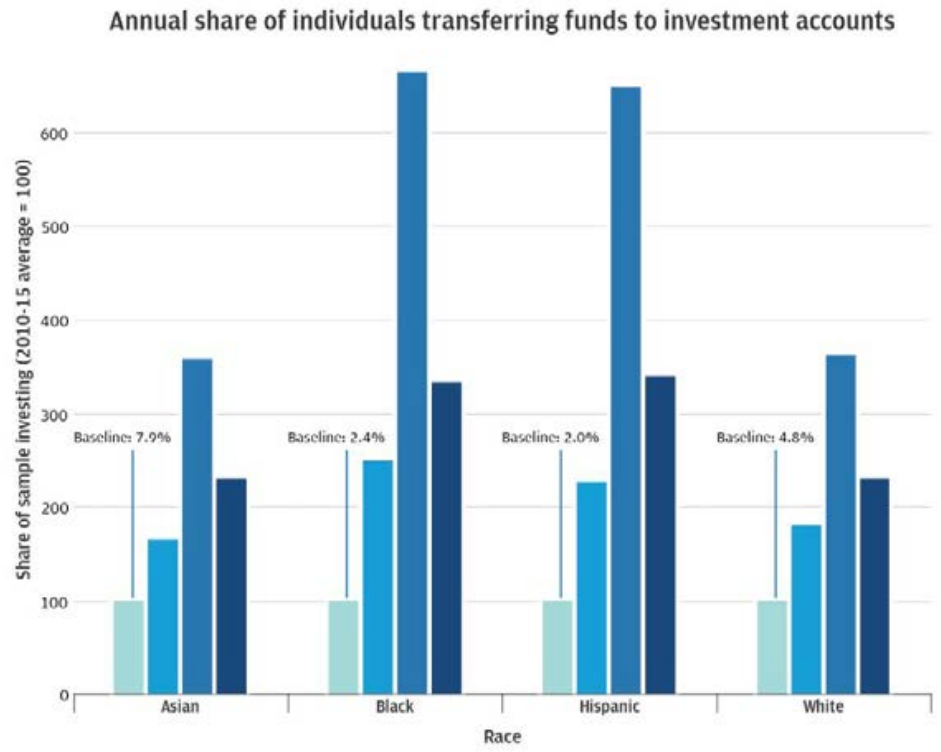

Notes: Labels reflect year when each inversion began. Inversion defined as 1-year yield averaging more than 10-year yield for at least one month.
Source: Federal Reserve Bank of St. Louis

Note: Plot shows the monthly number of individuals transferring funds into external investment accounts as a share of our active checking account user sample rescaled to each metric's 2010 to 2015 average level. For example, a level of 2 on the y-axis indicates that twice as many individuals made net transfers to investment accounts in the month relative to the baseline. We categorize individuals by their full-sample average age-adjusted real income.

Source: JPMorgan Chase Institute

Note: Data for 2023 are for the twelve months ending August 2023. Figure shows the share of active deposit account users that transferred funds to investment accounts in each calendar year.

INVESTMENT POLICY COMPLIANCE

I certify that the City's Investment Portfolio is in full compliance with the City's Investment Policy and California Government Code Section 53601, and I believe the Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and income to meet the City's expenditure requirement for the next six months.
