For purposes of calculating the fees for an ADU on a lot with a multifamily dwelling, the proportionality shall be based on the average square footage of the units within that multifamily dwelling structure. For ADUs converting existing space with a 150 square-foot expansion, a total ADU square footage over 750square feet could trigger the proportionate fee requirement. (Gov. Code, § 65852.2, subd. (f)(3)(A).)
