RE: AB 52 Consultation, 2500 N. Hollywood Way – Dual Brand Hotel Project, Burbank, Los Angeles County, California

Dear Chairperson Salas:

The City of Burbank (City) is preparing an Environmental Impact Report (EIR) for the proposed 2500 N. Hollywood Way – Dual Brand Hotel Project (project). The project site is currently developed with a Marriott Hotel, Convention Center, and 758 surface parking spaces. The project proposes development of a dual brand hotel and detached (aboveground) parking structure on a portion of the site currently used for surface parking. No changes to the existing Marriott Hotel and Convention Center are proposed and these uses would remain in operation during construction and upon project completion. The proposed project is subject to the California Environmental Quality Act (CEQA) with the City serving as the lead agency.

A Cultural Resources Assessment Report has been prepared by Rincon Consultants. The results of the study identified no prehistoric or historic-period cultural resources on the project site and concluded that the project site exhibits a relatively low sensitivity for containing intact, subsurface archaeological deposits. As part of the Cultural Resources Assessment, a search of the Sacred Lands File was conducted by the Native American Heritage Commission (NAHC) with negative results. A list of individuals or tribal organizations that may have knowledge of cultural resources within or near the project site was provided by the NAHC. Rincon Consultants contacted each of these individuals/tribal organizations; however, no responses expressing concern for cultural resources within or near the project site have been received.

The proposed project must comply with California Public Resources Code § 21080.3.1 (Assembly Bill [AB] 52 of 2014), which requires local governments to conduct meaningful consultation with California Native American tribes that have requested to be notified by lead agencies of proposed projects in the geographic area with which the tribe is traditionally and culturally affiliated.

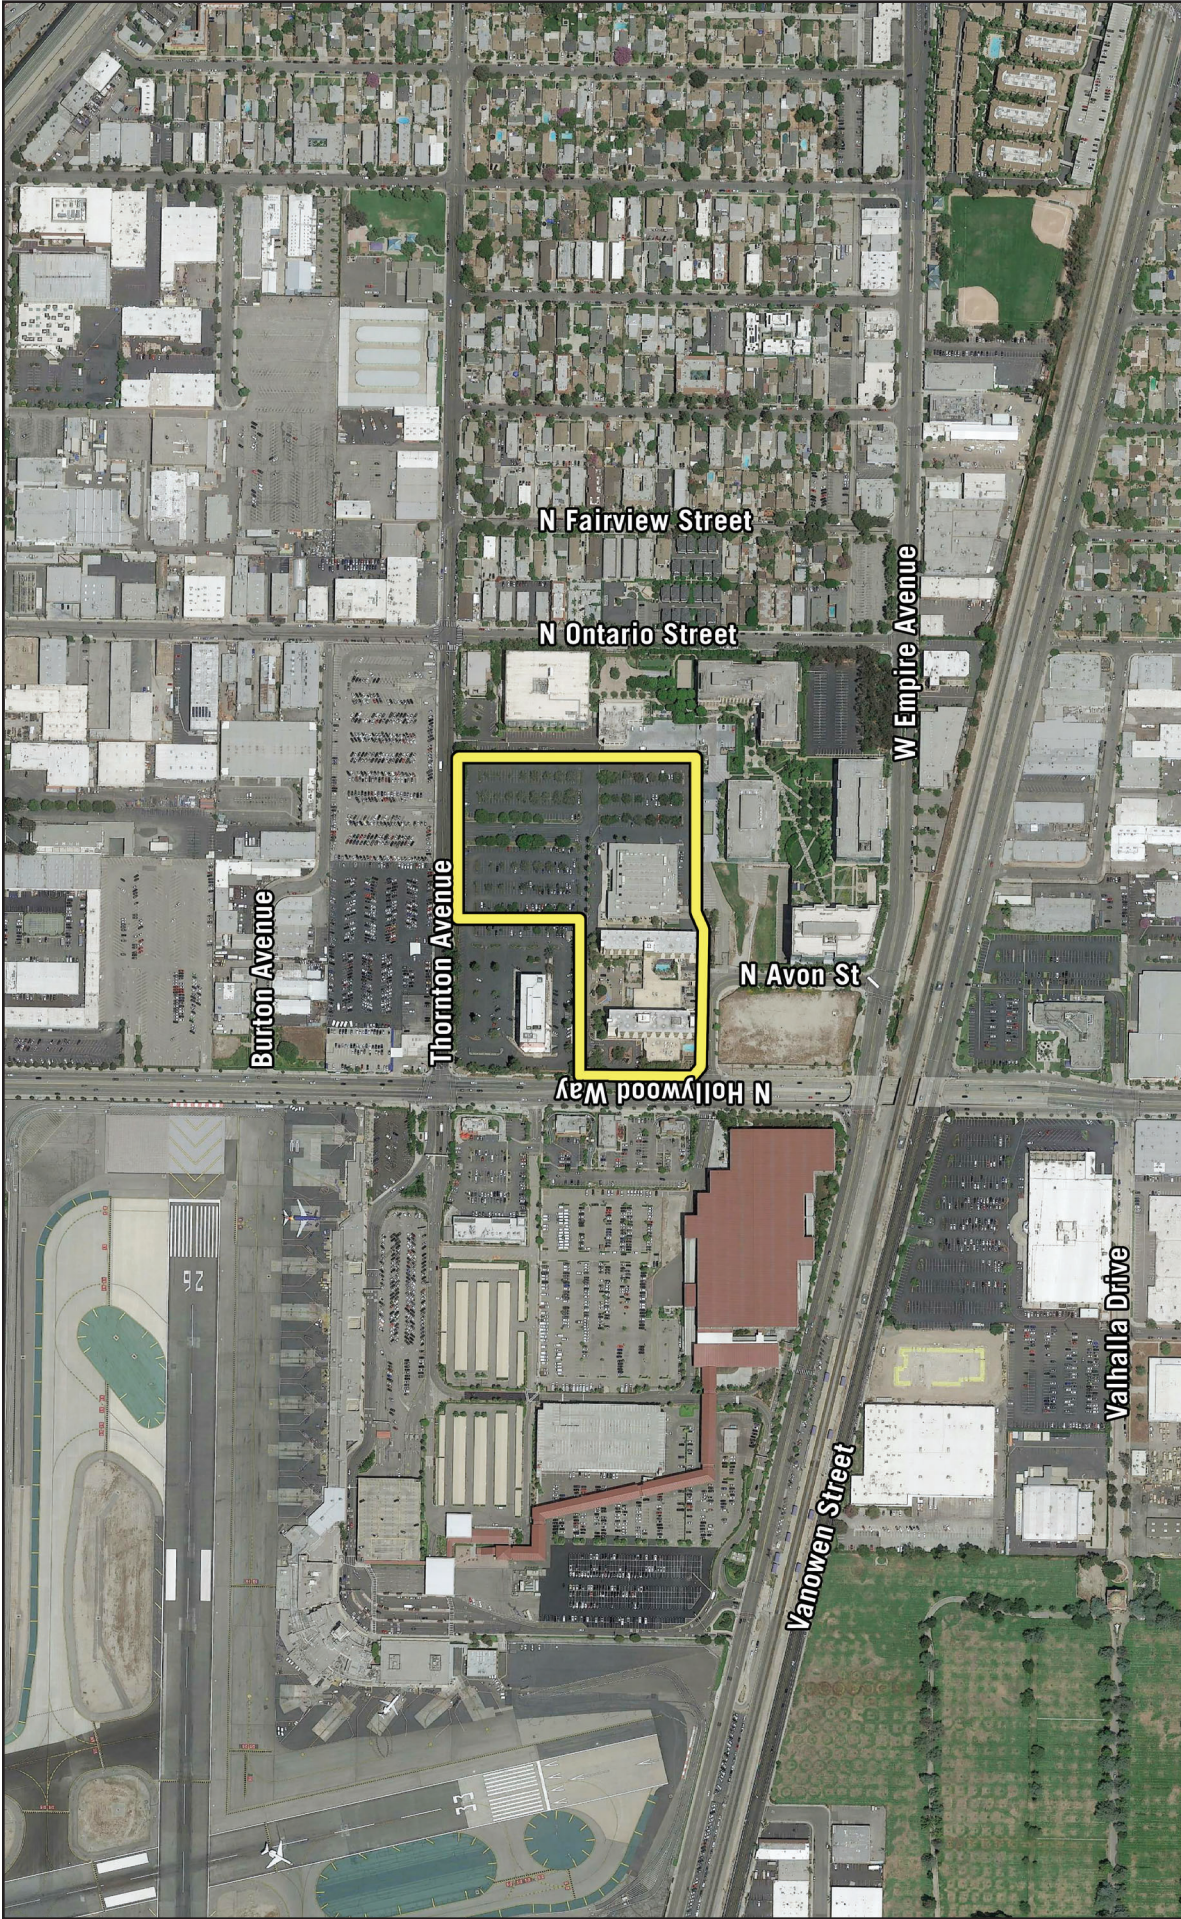

The input of your tribe is important to City's planning process. We respectfully request a written response within 30 days from receipt of this letter if you wish to consult on the proposed project. If you require any additional information or have any questions, please contact me at 818-238-5250 or via e-mail at dvilla@burbankca.gov. Thank you for your assistance.

Sincerely,

Daniel Villa
