**Affordability of Replacement Units**

***If income levels are available for the site:***

If the applicant is proposing to demolish *Protected Units* and the income of current or past occupants is available and provided on the Tenant Income Verification Worksheet (Attachment 2), those units must be replaced with units that have rents affordable at the same or lesser income category.

***If all income levels are not available for the site that has at least one occupied dwelling unit at the time of application:***

Pursuant to **Government Code Section 65915(c)(3)(B)(i)**, if incomes of current or past occupants of existing or demolished units are **not known**, assume a proportion of units are *Protected Units* in accordance with the proportion of lower-income renter households relative to all renter households in the City.

*For example, when replacing a 10-unit apartment building that has been in existence for the last 5 years and all incomes are unknown, assume 60.5% (or 6.1 units) were occupied by lower income households based on the proportions below. The unit numbers shall be rounded up to the nearest whole number. Therefore, you must replace 7 units at any income category of Lower Income Households.*

***If all income levels are not available for the site in which all dwelling units are vacant and/or demolished:***

Pursuant to **California Government Code Section 65915(c)(3)(B)(ii)**, if all incomes of past occupants of vacant and/or residential units demolished in the last five years are **not known**, assume a proportion of units are *protected* in accordance with the proportion of low-income and very-low renter households relative to all renter households in the City.

*For example, when replacing a 10-unit apartment building that has been in existence for the last 5 years, assume 1.4 units were occupied by very low income households, and 2.1 units were occupied by low-income households based on the proportions below. The unit numbers shall be rounded to the nearest whole number. Therefore, you must replace 2 units at the very low income category and 3 units at low income category.*

**City of Burbank - Proportion of Renter Households by Income Level\*:**

Household Income Level	Renter Households	% of Total Renter Households
Extremely Low Income (< or = 30% HAMFI)	6,135	25.88%
Very Low Income (>30%, <50% HAMFI)	3,205	13.52%
Low Income (>50%, <80% HAMFI)	5,005	21.11%
Moderate Income and above (>80% HAMFI)	9,360	39.48%
